

StyleLite® Laminated Panel Custom Program

Custom Laminated StyleLite® Panel Program **Specifically created for Cut-to-Size Door & Cabinet Components**

This value added laminating service delivers the highest quality High Gloss Acrylic sheet, StyleLite®, PUR laminated to a superior MDF substrate, and backed with a matching low gloss .03" vertical grade HPL or with matching high gloss StyleLite®. These sheets are made available with the intention they will be processed into smaller parts. Full panel applications potentially require a different backer, please inquiry with SSI for details.

All 1mm StyleLite® stocked by SSI is available for lamination. Custom colors require further inquiry, please call.

Materials:

- 1230mm x 2465mm x 1mm StyleLite®\
- 4' x 8' x 3/4" MDF
- Superior PUR adhesive securing both laminates to high quality MDF substrate

Backer options:

- .030" Low gloss solid color HPL backer (matches available on stock items)
- OR
- 1mm matching StyleLite®

When planning your next project please consider that full panels need to be cut-to-size just prior to edgebanding to minimize warpage.

Bow tolerance (max): 4mm / meter
