NORTH AMERICA

GOING BEYOND THE  
SURFACE

SSI proudly offers Pentadecor® 3D laminate films from Klockner Pentaplast. Our stock range has been especially curated for the North American market and covers a wide range of beautiful printed and textured woodgrain designs as well as stunning super matte solids. Pentadecor 3DL is environmentally friendly, durable and easy to clean with a wide range of cleaners.

Merging the decorative detail of custom routed MDF panels with the myriad of 3DL color, design and finish options available is the perfect way for the A & D community to add significant design value. Additionally, projects can be value engineered by the combination of SSI 3DL with matching TFL panels.

Due to the many variations in monitors and browsers, color samples may appear different on different monitors. Computer monitors are not all calibrated equally and color reproduction on the Internet is not precise. We do our very best to make sure the online samples are as close in color to the exact product as possible. It is highly recommended that you order a sample before making a decision.
