

CHAMELEON

Chameleon is a warm earthy grey coloration with the appearance of a rift oak linear woodgrain. There has been a renewed interest in heritage pieces and as the name suggests, this soft subtle shading works in multiple designs. It is a clean crisp woodgrain design that is accented by the latest modern woodpore texture, contributing to its appealing haptic quality and creating a modern subtle neutral. Chameleon is featured in SSI's Collection trend and is partnered here with the solid super mattes Ivory Beige, Living coral and Verde.

Chameleon is offered in a furniture like textured finish and is suitable for vertical and horizontal applications. It is easy to clean, doesn't chip, is highly durable and has long term UV Stability.
